

Saikumar Bommuluri– Sr.Test Engineer

Mobile Num: 9182744368

Email Id: saikumar319jd@gmail.com

Professional Summary:

- Accomplished Test Engineer with 5 years of extensive experience in both Functional and Automation Testing, with a focus on Production Launches and Strategic Projects. Demonstrated expertise in leading and executing a variety of testing initiatives, including internal functional projects, change requests, and the resolution of production issues. Highly skilled in applying a diverse set of testing methodologies and tools to deliver high-quality software solutions and ensure robust system performance.

Professional Expertise:

- Well versed with various stages of Software Development Life Cycle (SDLC), Software Test life cycle (STLC) & Bug Life Cycle.
- Experience in preparing Cucumber feature files (User Stories) and automated the feature file using Selenium.
- Extensive experience in automating web applications with Selenium WebDriver, Maven, and BDD
- Experience in testing Rest API's by using Postman.
- Experience in Automating Web Applications using Selenium WebDriver with TestNG.
- Well Experience to develop automation scripts by using POM methodology.
- Experienced at developing automation framework by using cucumber.
- Experience in database testing, including SQL query execution and validation of data.
- Extensively performed Analyzing Requirements, Traceability Matrix, Test design, Test execution, Bug Reporting and Documentation for Web based Applications.
- Extensively used Black Box testing techniques Equivalence partitioning (ECP), Boundary value analysis (BVA) while performing Integration, Functional, Field Validation, Regression and User Acceptance Testing.
- Experience in testing power automates business workflows.
- Expertise in Defect Analysis reporting bugs, tracking bugs till their closure.
- Manage and Maintain Automation Scripts in Azure DevOps (ADO) Repository, Git Lab.
- Experienced in preparing test case by using Katlon Studio.
- Executed automation test cases and shared automation report to the team.
- Knowledge of CI/CD pipelines.

Certifications:

- **Advanced Selenium Certification: Lambda Test**
- **Selenium 101 Certification: Lambda Test**

Experience:

- **Sr. Test Engineer**
Inovar Tech, Jul 2022 – OCT2024
- **Programmer Analyst**
Cognizant Technology Solutions, Dec 2021 – Jul 2022
- **Test Engineer**
Inovar Consulting, Jul 2019 – Dec 2021

Education:

- B. Tech (Mech) in Eluru college of engineering and technology(JNTUK)2013-2017.
- Intermediate in NRI junior college in the year 2011-2013.
- SSC in SKDH School in the year 2010-2011

Projects:

Project 1 : **ATS**
Role : Senior QA engineer
Technology : sharePoint, Power Automate.
Testing Approach : Manual Testing, Automation testing
Testing tools : ADO, Selenium, Cucumber

Project Brief : An applicant tracking system (ATS) is software that manages the recruiting and hiring process, including job postings and job applications. It organizes information about job seekers and makes it searchable. As its name implies, an ATS tracks candidates through the hiring process.

Responsibility:

- Analyzing the Requirement and based on requirement prepare test cases in ADO.
- Actively involved in executing the Test Cases.
- Performed Field Validation, Functional, Integration & Workflow testing.
- Reporting the bugs using defect tracking tools-JIRA & tracking bugs till their closure & obtaining Business user Signoff.
- Maintain Bug density sheet and test execution reports.
- Involved in Retesting, Regression, Usability, Sanity & Smoke Testing.
- Involved in different sprint meetings.
- Perform Internal demos with HR team.

- Preparing automation test case by using selenium with cucumber.
- Executed automation test cases and shared automation report to the team.
- Actively involved in the sprint calls and share the new ideas about functionalities to the product team.
- Maintain the automation code into ADO repository.

Project 2 : Microsoft alumni network

Role : Senior QA engineer

Technology : Power Pages, Power Automate.

Testing Approach : Manual Testing, Automation testing

Testing tools : ADO, Katlon studio.

Project Brief : This project is to deliver technology solutions to REV LLC for their client Microsoft Alumni Network (MAN). This services project may include but is not limited to Architecture, technology design, experience design, development, testing, deployment, and maintenance of the following work streams.

Responsibility:

- Analyzing the Requirement and based on requirement prepare test cases in ADO.
- Actively involved in executing the Test Cases.
- Performed Field Validation, Functional, Integration & Workflow testing.
- Reporting the bugs using defect tracking tools-ADO & tracking bugs till their closure & obtaining Business user Signoff.
- Maintain Bug density sheet and test execution reports.
- Involved in Retesting, Regression, Usability, Sanity & Smoke Testing.
- Involved in different sprint meetings.
- Perform Internal demos with HR team.
- Preparing automation test case by using Katlon studio.
- Executed automation test cases and shared automation report to the team.
- Actively involved in the sprint calls and share the new ideas about functionalities to the product team.

Project 3 : Skolasti

Role : Senior QA engineer

Technology : .net, ReactJS

Testing Approach : Manual Testing, Api testing, Db testing

Testing tools : ADO, Postman, My SQL

Project Brief : Skolasti's online LMS platform provides an effortless solution for managing tasks, streamlining processes, organizing training data, and promoting seamless collaboration between teams. conducting compliance training sessions, learning the way a new technology or machinery equipment works or simply upskilling for an excellent career path, we have got you covered. Skolasti's enterprise and corporate LMS make skill mastery and knowledge retention a breeze, ensuring you and your team grow faster than ever.

Responsibility:

- Analyzing the User stories in ADO.
- Writing the test cases based on the User stories by using ADO.
- Actively involved in executing the Test Cases by using ADO.
- Performed Field Validation, Functional, Integration & Workflow testing.
- Reporting the bugs using defect tracking tools-ADO & tracking bugs till their closure & obtaining Business user Signoff.
- Involved in Retesting, Regression, Usability, Sanity & Smoke Testing.
- Involved in different sprint meetings.
- Involved in API testing by using postman.
- Involved in DB testing by using SSMS.

Project 4 : Motor ROI

Role : Program Analyst.

Technology : .Java, Oracle DB

Testing Approach : Manual Testing, Automation testing, Db testing

Testing tools : JIRA, CITS, My SQL

Project Brief : Close brothers group plc is a UK merchant group, providing lending, deposit taking, wealth management and securities trading. Close brothers motor finance is a trading style of close brothers limited ('CBL'), a subsidiary of close brothers group plc. And it's one of the UK'S leading providing motor finances. And it also providing services for ROI (Republic of Ireland). The CCR is centralized system that collects and stores personal and credit information from lenders about the loans and credit facilities they provide, in line with the credit reporting act 2013.

Responsibility:

- Actively involved in executing the Test Cases.
- Performed Field Validation, Functional, Integration & Workflow testing.
- Involved in Retesting, Regression, Usability, Smoke Testing.
- Involved in different sprint meetings with internal team.
- Maintain existing automation scripts by using CITS tool.
- Involved sprint demo with client.
- Prepare decision making table for executing multiple test cases.

Project 5 : T-Mobile

Role : Test engineer

Technology : .net

Testing Approach : Manual Testing, Automation Testing

Testing tools : JIRA, Selenium, Cucumber

Project Brief : T-Mobile US, Inc., commonly shortened to T-Mobile, is a United States-based wireless network operator whose majority shareholder is the German telecommunications company Deutsche Telekom (DT). Its headquarters are in Bellevue, Washington, in the Seattle metropolitan area. T-Mobile is the third largest wireless carrier in the United States with 79.7 million customers of the end of Q4 2018.

Responsibility:

- Actively involved in executing the Test Cases.
- Performed Field Validation, Functional, Integration & Workflow testing.
- Involved in Retesting, Regression, Usability,Smoke Testing.
- Involved in different sprint meetings.
- Developeped automation frame work for automate the test case by using selenium with cucumber.
- Executed automation test cases and shared automation report to the team.
- Actively involved in the sprint calls and share the new ideas about functionalities to the productteam.

Personal details:

Name	: Saikumar Bommuluri
Father Name	: Koteswararao Bommuluri.
Address	: D-no:7b-11-15, Near Bosu bomma center,Eastern street, Eluru, Pin no:534001, West Godavari , Andhra Pradesh.
